

EVEN WATCHFUL WAITING COMES WITH RISKS

Healthy Bladder

Bladder Worsens¹

Permanently Damaged²

- Bladder outlet obstruction could result in irreversible bladder damage if left untreated³

ENLARGED/OBSTRUCTED PROSTATE

OPEN PROSTATE

Results may vary

The UroLift® System is a minimally invasive approach to treating enlarged prostate that provides rapid symptom relief and recovery^{4,5}

[†]Indicated for the treatment of symptoms of an enlarged prostate up to 100cc in men 50 years or older. As with any medical procedure, individual results may vary. Most common side effects are temporary and include dysuria, hematuria, pelvic pain, micturition urgency, urge incontinence (Roehrborn, J Urology 2013). Rare side effects, including bleeding and infection, may lead to a serious outcome and may require intervention. Consult indications approved for your geography and the Instructions for Use (IFU) for more information. ifu.teleflex.com
